CloudTalk Enterprise

**Designed for simplicity,
mastered for efficiency!**

Unified Communication as a Service:

Have you embraced the new way of working?

Creating a mobile workforce

Incorporating new-age collaboration tools

Communicating instantly from anywhere, anytime, using any device

Etisalat by e& offers a transformation from on-premise Managed Services to Cloudbased Telephony with Managed Services.

The Customer can migrate their existing Business Telephone numbers (DID ranges) from PRI & SIP Trunk to Cloud based advanced Telephony services which are bundled with calling plans, add-on devices like phones and conference rooms which can also be integrated with the solution.

What is CloudTalk?

A cohesive, cloud-based, end-to-end solution that supports your business communication and collaboration efficiently. PSTN calls from a Cloud-based Telephony platform.

Carrier-grade unified communication as a service (UCaaS)

Delivers state-of-the-art features and Omni experience across devices

Offers 99.999% availability and redundancy

Regulatory Compliant and etisalat by e& secured Service

Features of IP PABX and much more

Supports Cloud Contact center and future ready for CPaaS
