VSAT

Making remote connectivity more secure, accessible, and highly available through end-to-end managed VSAT service

High availability and superior transmission quality with VSAT services

Etisalat by e& offers a high quality and high performance end-to-end managed VSAT (Very Small Aperture Terminal) service, enabling customers to take faster, and better decisions, increase productivity, and improve efficiency through IP technology.

Cost-effective VSAT earth stations helping address connectivity issues in remote areas

Powerful, cost-effective VSAT earth stations have helped address connectivity requirements in remote areas of the world. VSAT networks enable businesses to have access to the latest communications services, those that support voice, data, and the Internet from remote locations, without a requirement of terrestrial infrastructure.

-  Quick turnaround time
-  Low risk, proven technology
-  Unified equipment supply
-  Ready service availability
-  Standardized solution
-  Ease of integration

Evolving customer needs:

Etisalat by e& regulatory compliant VSAT services offer integrated data and internet access via a satellite network that covers even the most remote locations while maintaining high availability and transmission quality

-  Extremely reliable form of satellite connectivity network
-  Low risk and advanced technology service
-  Supports telecom and ICT solutions as an add-on
-  Rapid speed with accessibility for high availability
-  Scope for customisation based on business needs
-  Quick deployment time even for remote or rural areas

The usage of satellite communications enables the application and Quality of Service criteria to be met. These intrinsic characteristics make VSAT communication appealing for industry-specific applications.

Make informed decisions and improve efficiency through VSAT's IP technology

-  Ku and C band service offering over Geo positioned satellites
-  Dedicated or shared bandwidth offerings
-  Advanced teleport facilities
-  Professional skillsets
-  Network & integration capabilities
-  24x7x365 customer support

Why partner with Etisalat by e&?

-  Industry-leading expertise
-  Customised solution offering
-  Seamless integration capabilities
-  Continuous innovation & upgrades
-  Single managed service provider
-  Round-the-clock support services
