Your data is never used to improve or train our AI systems
Complete privacy and confidentiality guaranteed

Key features for HR transformation

Policy and compliance management

Ensure compliance with company policies and legal requirements by tracking updates, offering training, and generating reports.

Automated contract and job description creation

Effortlessly create contracts and job descriptions. Save time, streamline workflows, and ensure all critical details are included.

Your AI-powered HR journey

- Automatically analyse resumes for relevant skills and qualifications.
- Locate case studies, recognise policy arguments, and understand past outcomes to support informed policy making.
- Examine HR documents, policies and contracts to identify critical details and potential risks.
- Leverage AI to connect with talent sources and identify top candidates.

Drive big cost savings and perform complex tasks with unmatched efficiency
